CookieHub for Google Customers

CookieHub is an intuitive Consent Management Platform (CMP) that ensures your website complies with GDPR and other data protection regulations, simplifying the path to full compliance.

Value Proposition

Why should customers choose CookieHub

- **Ease of Integration:** CookieHub can be seamlessly integrated into existing websites using various methods, including direct insertion into the website's HTML or through Google Tag Manager.
- **Customization Options:** CookieHub provides options to customize the consent banner to match the look and feel of the website, ensuring that the consent request is both clear to users and consistent with the website's design.
- **Support and Updates:** Ongoing support and regular updates to stay in line with the latest legal requirements and technological advances.

* When selecting a service tier and particularly when choosing a free tier, please be sure to check whether your business needs can be met within the conditions, limitations and caps applying to the tier in order to avoid disruption and discontinuity to measurement

Disclaimer: Subject to change at any time; CMPs should be contacted directly for the latest information on their services.

Consent Banner and Consent Mode implementation steps

Self serve available

Get started in 3 easy steps

- **Sign Up and Configure:** Visit the CookieHub website and sign up for an account. Use the configuration tool to customize your consent banner and settings according to your specific requirements and the data protection regulations relevant to your audience.
- **Integration:** Integrate CookieHub into your website. You can do this by inserting the generated code snippet directly into your website's HTML or by using Google Tag Manager.
- **Test and Optimize:** Once CookieHub is integrated, test the website to ensure that the consent banner displays correctly. You can then use the analytics features of CookieHub to monitor consent interactions and optimize for better user engagement and compliance.
