

Sourcepoint for Google Customers

Sourcepoint is the practical privacy software company trusted by the world's most influential brands. Supporting over 30 billion consumer touchpoints per month, Sourcepoint offers enterprise-grade privacy automation for complex, dynamic compliance challenges.

Value Proposition

[Sourcepoint.com](https://sourcepoint.com)

Why should customers choose Sourcepoint

- Multi-regulation support from most flexible solution on market, with DSAR module add-on
- Ease of deployment across large and diverse portfolios under time pressure
- Robust customization and optimization of user experience while complying with data privacy regulations
- Ability to authenticate and synchronize consent across platform environments (web, app, AMP, OTT)
- Insights into 3rd party vendor behavior and downstream data processing with real-time alerts
- Powerful reporting and A/B testing
- Geotargeting different consent or opt-out messages (modals, footer links, subscription)
- Support for industry standards and signals including IAB TCF and GPP, Global Privacy Control, and Google ATP
- Learn more: [Case studies](#)
